American Journal of Physiology-
Heart and Circulatory Physiology

No. 1. JANUARY 2000

Phosphatase inhibitor cantharidin blocks adenosine A_1 receptor anti-adrenergic effect in rat cardiac myocytes
P. Narayan, R. M. Mentzer, Jr., and R. D. Lasley H1

A novel right-heart catheterization technique for in vivo measurement of vascular responses in lungs of intact mice
H. C. Champion, D. J. Villnave, A. Tower, P. J. Kadowitz, and A. L. Hyman H8

The 400 microsphere per piece "rule" does not apply to all blood flow studies
N. L. Polissar, D. C. Stanford, and R. W. Glenny H16

Energetic effects of adenosine on vascular smooth muscle
J. T. Barron and L. Gu H26

Effects of natriuretic peptides on load and myocardial function in normal and heart failure dogs
J. G. Lainchbury, J. C. Burnett, Jr., D. Meyer, and M. M. Redfield H33

Increased myometrial contracture frequency at 96–140 days accelerates fetal cardiovascular maturation
N. Shinozuka, A. Yen, and P. W. Nathanielsz H41

Effect of acidosis on transient outward potassium current in isolated rat ventricular myocytes
J. T. Hulme and C. H. Orchard H50

Regulation of endothelial nitric oxide synthase by PGD_2 in the developing choroid
I. Dumont, P. Hardy, K. G. Peri, X. Hou, S. Molotchnikoff, D. R. Varma, and S. Chemtob H60

AV blocking due to asynchronous vagal stimulation in rats
P. Schiereck, N. Sanna, and W. L. Mosterd H67

Adenosine is not responsible for local metabolic control of coronary blood flow in dogs during exercise
J. D. Tune, K. N. Richmond, M. W. Gorman, R. A. Olsson, and E. O. Feigl H74

bFGF increases collateral blood flow in aged rats with femoral artery ligation
H. T. Yang and Y. Feng H85

Influence of simulated ischemia on apoptosis induction by oxidative stress in adult cardiomyocytes of rats
J. Inserte, G. Taimor, B. Hofstaetter, D. Garcia-Dorado, and H. M. Piper H94

Improved contractile performance of right ventricle in response to increased RV afterload in newborn lamb
M. de Vroomen, R. H. Lopes Cardozo, P. Steendijk, F. Van Bel, and J. Baan H100

Role of the endothelial glycocalyx in dromotropic, inotropic, and arrythmogenic effects of coronary flow
R. Rubio and G. Ceballos H106

Role of cell contractions in cAMP-induced cardiomyocyte atrial natriuretic peptide release
D. J. Church, M. C. Rebsamen, D. Morabito, V. van der Bent, M. B. Vallotton, and U. Lang H117

Voltage-dependent facilitation of cardiac L-type Ca channels expressed in HEK-293 cells requires β-subunit
T. J. Kamp, H. Hu, and E. Marban H126

Toluidine blue O and methylene blue as endothelial redox probes in the intact lung
S. H. Audi, L. E. Olson, R. D. Bongard, D. L. Roerig, M. L. Schulte, and C. A. Dawson H137

Differential effects of pressure or volume overload on myocardial MMP levels and inhibitory control
Y. Nagatomo, B. A. Carabello, M. L. Coker, P. J. McDermott, S. Nemoto, M. Hamawaki, and F. G. Spinale H151

Human femoral artery diameter in relation to knee extensor muscle mass, peak blood flow, and oxygen uptake
G. Rådegran and B. Saltin H162

Impaired endothelium-mediated vasodilation is not the principal cause of vasoconstriction in heart failure
C. E. Negrao, M. A. Hamilton, G. C. Fonarow, A. Hage, J. D. Moriguchi, and H. R. Middlekauff H168

oxLDL specifically impairs endothelium-dependent, NO-mediated dilation of coronary arterioles
T. W. Hein, J. C. Liao, and L. Kuo H175

Arachidonic acid modulation of α1H, a cloned human T-type calcium channel
Y. Zhang, L. L. Cribbs, and J. Satin H184

Structural and mechanical factors influencing infarct scar collagen organization
S. D. Zimmerman, W. J. Karlon, J. W. Holmes, J. H. Omens, and J. W. Covell H194

Altered frequency characteristic of central vasomotor control in SHR
T. B. J. Kuo and C. C. H. Yang H201

C-type natriuretic peptide inhibits ANP secretion and atrial dynamics in perfused atria: NPR-B-cGMP signaling
S. J. Lee, S. Z. Kim, X. Cui, S. H. Kim, K. S. Lee, Y. J. Chung, and K. W. Cho H208

Cardiovascular response to acute hypovolemia in relation to age. Implications for orthostasis and hemorrhage
H. Olsen, E. Vernersson, and T. Länne H222

Cross talk of shear-induced production of prostacyclin and nitric oxide in endothelial cells
T. Osanai, N. Fujita, N. Fujiwara, T. Nakano, K. Takahashi, W. Guan, and K. Okumura H233

Calf blood flow during prolonged tilt in idiopathic dilated cardiomyopathy and after cardiac transplantation
S. Galatius, H. Wroblewski, V. B. Sørensen, P. Bie, H. Arendrup, and J. Kastrup H239

Phospholamban: a major determinant of the cardiac force-frequency relationship
W. F. Bluhm, E. G. Kranias, W. H. Dillmann, and M. Meyer H249

Cholesterol feeding exacerbates myocardial injury in Zucker diabetic fatty rats
S. Hoshida, N. Yamashita, K. Otsu, T. Kuzuya, and M. Hori H256

Inhibition by calcium antagonism of circulating and renal endothelin in experimental congestive heart failure
C. Wei and J. C. Burnett, Jr. H263

Endothelial cells potentiate phagocytic killing by macrophages via platelet-activating factor release
T. Owaki, A. Meneshian, K. Maemura, S. Takao, D. Wang, K. C. Fuh, G. B. Bulkley, and A. S. Klein H269

SPECIAL COMMUNICATION

Modified heart-lung preparation for the evaluation of systolic and diastolic coronary flow in rats
G. Kissling, B. Blickle, and U. Pascht H277

RAPID COMMUNICATIONS

Capillary endothelial surface layer selectively reduces plasma solute distribution volume
H. Vink and B. R. Duling H285

Estrogen status affects sensitivity to focal cerebral ischemia in stroke-prone spontaneously hypertensive rats
H. V. O. Carswell, A. F. Dominiczak, and I. M. Macrae H290

Extracellular Ba^{2+} blocks the cardiac transient outward K^+ current
H. Shi, H.-Z. Wang, and Z. Wang H295

Na^+/H^+ exchange inhibition attenuates hypertrophy and heart failure in 1-wk postinfarction rat myocardium
H. Yoshida and M. Karmazyn H300

Ischemic preconditioning in rats: role of mitochondrial K_{ATP} channel in preservation of mitochondrial function
R. M. Fryer, J. T. Eells, A. K. Hsu, M. M. Henry, and G. J. Gross H305

No. 2. FEBRUARY 2000

Mechanism of preserved positive lusitropy by cAMP-dependent drugs in heart failure
T. Tanigawa, M. Yano, M. Kohno, T. Yamamoto, T. Hisaoka, K. Ono, T. Ueyama, S. Kobayashi, Y. Hisamatsu, T. Ohkusa, and M. Matsuzaki H313

Stroke volume during exercise: interaction of environment and hydration
J. González-Alonso, R. Mora-Rodríguez, and E. F. Coyle H321

Chronic hypercapnia inhibits hypoxic pulmonary vascular remodeling
H. Ooi, E. Cadogan, M. Sweeney, K. Howell, R. G. O'Regan, and P. McLoughlin H331

Role of adenosine A_{2B} receptors in vasodilation of rat pial artery and cerebral blood flow autoregulation
H. K. Shin, Y. W. Shin, and K. W. Hong H339

Transient increases in diameter and $[Ca^{2+}]_i$ are not obligatory for myogenic constriction
M. A. Hill, H. Zou, M. J. Davis, S. J. Potocnik, and S. Price H345

Functional role of angiotensin II type 1 and 2 receptors in regulation of uterine blood flow in nonpregnant sheep
D. S. Lambers, S. G. Greenberg, and K. E. Clark H353

Regulation of myocardial blood flow response to mental stress in healthy individuals
H. Schöder, D. H. Silverman, R. Campisi, J. W. Sayre, M. E. Phelps, H. R. Schelbert, and J. Czernin H360

B_1 and B_2 bradykinin receptors on adventitial fibroblasts of cerebral arteries are coupled to recombinant eNOS
M. Tsutsui, H. Onoue, Y. Iida, L. Smith, T. O'Brien, and Z. S. Katusic H367

Tyrosine phosphorylation modulates arteriolar tone but is not fundamental to myogenic response
B. E. Spurrell, T. V. Murphy, and M. A. Hill H373

Dynamics of flow, resistance, and intramural vascular volume in canine coronary circulation
J. A. E. Spaan, A. J. M. Cornelissen, C. Chan, J. Dankelman, and F. C. P. Yin H383

VSM growth is stimulated in sympathetic neuron/VSM cocultures: role of TGF-β2 and endothelin
D. H. Damon H404

Expression of the β (slow)-isoform of MHC in the adult mouse heart causes dominant-negative functional effects
J. C. Tardiff, T. E. Hewett, S. M. Factor, K. L. Vikstrom, J. Robbins, and L. A. Leinwand H412

Effects of recombinant eNOS gene expression on reactivity of small cerebral arteries
M. Tsutsui, H. Onoue, Y. Iida, L. Smith, T. O'Brien, and Z. S. Katusic H420

Increased aortic stiffness assessed by pulse wave velocity in apolipoprotein E-deficient mice
Y.-X. Wang, M. Halks-Miller, R. Vergona, M. E. Sullivan, R. Fitch, C. Mallari, B. Martin-McNulty, V. Da Cunha, A. Freay, G. M. Rubanyi, and K. Kauser H428

Role of leukocytes and tissue-derived oxidants in short-term skeletal muscle ischemia-reperfusion injury
A. Kadambi and T. C. Skalak H435

Measurements of calcium transients in ventricular cells during discontinuous action potential conduction
M. B. Wagner, Y.-G. Wang, R. Kumar, D. A. Golod, W. N. Goolsby, and R. W. Joyner H444

Electrical interactions between a real ventricular cell and an anisotropic two-dimensional sheet of model cells
Y.-G. Wang, R. Kumar, M. B. Wagner, R. Wilders, D. A. Golod, W. N. Goolsby, and R. W. Joyner H452

Reduced NO-dependent arteriolar dilation during the development of cardiomyopathy
D. Sun, A. Huang, G. Zhao, R. Bernstein, P. Forfia, X. Xu, A. Koller, G. Kaley, and T. H. Hintze H461

Spatial variations in endothelial barrier function in disturbed flows in vitro
J. E. Phelps and N. DePaola H469

Relationship between nociceptin/orphanin FQ and cerebral hemodynamics after hypoxia-ischemia in piglets
W. M. Armstead H477

Developmental differences in delayed rectifying outward current in feline ventricular myocytes
H. Barajas-Martínez, A. Elizalde, and J. A. Sánchez-Chapula H484

Role of endothelin receptor subtypes in volume-stimulated ANF secretion
A. J. Baertschi, T. Pedrazzini, J.-F. Aubert, A. Roatti, and R. A. Pence H493

Elevated salt intake impairs dilation of rat skeletal muscle resistance arteries via ANG II suppression
D. S. Weber and J. H. Lombard H500

Role of kinins in chronic heart failure and in the therapeutic effect of ACE inhibitors in kininogen-deficient rats
Y.-H. Liu, X.-P. Yang, D. Mehta, M. Bulagannawar, G. M. Scicli, and O. A. Carretero H507

Effects of autonomic disruption and inactivity on venous vascular function
J. M. Wecht, R. E. De Meersman, J. P. Weir, W. A. Bauman, and D. R. Grimm H515

Mechanical stretch stimulates growth of vascular smooth muscle cells via epidermal growth factor receptor
H. Iwasaki, S. Eguchi, H. Ueno, F. Marumo, and Y. Hirata H521

Muscle metaboreflex control of cardiac output and peripheral vasoconstriction exhibit different latencies
R. A. Augustyniak, E. J. Ansorge, and D. S. O'Leary H530

Increased urinary excretion of uroguanylin in patients with congestive heart failure
S. L. Carrithers, S. L. Eber, L. R. Forte, and R. N. Greenberg H538

Stretch-activated whole cell currents in adult rat cardiac myocytes
T. Zeng, G. C. L. Bett, and F. Sachs H548

Effects of central infusion of ANG II and losartan on the cardiac barore[illegible] rabbits
E. Gaudet, S. J. Godwin, and G. A. Head H558

Effects of potassium channel modulators on myotropic responses of aortic rings of pregnant rats
C. Cadorette, B. Sicotte, M. Brochu, and J. St-Louis H567

Frequency limits on aortic baroreceptor input to nucleus tractus solitarii
Z. Liu, C.-Y. Chen, and A. C. Bonham H577

Gene transfer of calcitonin gene-related peptide to cerebral arteries
K. Toyoda, F. M. Faraci, A. F. Russo, B. L. Davidson, and D. D. Heistad H586

Glucose-insulin-potassium preserves systolic and diastolic function in ischemia and reperfusion in pigs
P. Zhu, L. Lu, Y. Xu, C. Greyson, and G. G. Schwartz H595

Resolution of smooth muscle and endothelial pathways for conduction along hamster cheek pouch arterioles
I. S. Bartlett and S. S. Segal H604

AT_1 receptor inhibition does not reduce arterial wall hypertrophy or PDGF-A expression in renal hypertension
S. B. Parker, A. D. Dobrian, S. S. Wade, and R. L. Prewitt H613

Protective roles of endogenous carbon monoxide in neointimal development elicited by arterial injury
Y. Togane, T. Morita, M. Suematsu, Y. Ishimura, J.-I. Yamazaki, and S. Katayama H623

Ventricular adrenomedullin concentration is a sensitive biochemical marker for volume and pressure overload in rats
F. Yoshihara, T. Nishikimi, T. Horio, C. Yutani, N. Nagaya, H. Matsuo, T. Ohe, and K. Kangawa H633

Heme oxygenase-1-derived bilirubin ameliorates postischemic myocardial dysfunction
J. E. Clark, R. Foresti, P. Sarathchandra, H. Kaur, C. J. Green, and R. Motterlini H643

SPECIAL COMMUNICATIONS

Immunochemical evidence for a unique GPI-anchored carbonic anhydrase isozyme in human cardiomyocytes
A. S. Knüppel-Ruppert, G. Gros, W. Harringer, and H. P. Kubis H1335

Myocardial substrate metabolism influences left ventricular energetics in vivo
C. Korvald, O. P. Elvenes, and T. Myrmel H1345

In vivo expression profile of an endothelial nitric oxide synthase promoter-reporter transgene
A.-M. Teichert, T. L. Miller, S. C. Tai, Y. Wang, X. Bei, G. B. Robb, M. J. Phillips, and P. A. Marsden H1352

Altered membrane proteins and permeability correlate with cardiac dysfunction in cardiomyopathic hamsters
Y. Ikeda, M. Martone, Y. Gu, M. Hoshijima, A. Thor, S. S. Oh, K. L. Peterson, and J. Ross, Jr. H1362

SPECIAL COMMUNICATIONS

Generation of intracellular pH gradients in single cardiac myocytes with a microperfusion system
K. W. Spitzer, P. R. Ershler, R. L. Skolnick, and R. D. Vaughan-Jones H1371

Focal extracellular potential: a means to monitor electrical activity in single cardiac myocytes
T. L. Riemer and L. Tung H1383

RAPID COMMUNICATIONS

Resistance to myocardial ischemia in five rat strains: is there a genetic component of cardioprotection?
J. E. Baker, E. A. Konorev, G. J. Gross, W. M. Chilian, and H. J. Jacob H1395

Fluid shear stress increases membrane fluidity in endothelial cells: a study with DCVJ fluorescence
M. A. Haidekker, N. L'Heureux, and J. A. Frangos H1401

LETTERS TO THE EDITOR

Definition of arterial compliance
P. Tozzi and D. Hayoz H1407

No. 5. MAY 2000

EDITORIALS

Publishing in the journals of the APS: Why are authors charged fees?
D. J. Benos, L. G. Navar, and M. Reich H1409

Evaluation of aortic compliance in humans
H. F. Kuecherer, A. Just, and H. Kirchheim H1411

Right ventricular pressure and dilation during pressure overload determine dysfunction after pressure overload
C. Greyson, Y. Xu, L. Lu, and G. G. Schwartz H1414

Sphingomyelinase and ceramide analogs induce contraction and rises in $[Ca^{2+}]_i$ in canine cerebral vascular muscle
T. Zheng, W. Li, J. Wang, B. T. Altura, and B. M. Altura H1421

Thyroid hormone-induced overexpression of functional ryanodine receptors in the rabbit heart
M. Jiang, A. Xu, S. Tokmakejian, and N. Narayanan H1429

Protection against endotoxemia by HSP70 in rodent cardiomyocytes
S. S. Lau, T. M. Griffin, and R. Mestril H1439

Depressed tolerance to fluorocarbon-simulated ischemia in failing myocardium due to impaired $[Ca^{2+}]_i$ modulation
J.-Y. Min, T. G. Hampton, J.-F. Wang, J. Deangelis, and J. P. Morgan H1446

Importance of bicarbonate transport for protection of cardiomyocytes against reoxygenation injury
C. Schäfer, Y. V. Ladilov, B. Siegmund, and H. M. Piper H1457

Energy-wasteful total Ca^{2+} handling underlies increased O_2 cost of contractility in canine stunned heart
S. Lee, J. Araki, T. Imaoka, M. Maesako, G. Iribe, K. Miyaji, S. Mohri, J. Shimizu, M. Harada, T. Ohe, M. Hirakawa, and H. Suga H1464

Role of matrix metalloproteinase-2 in thrombin-induced vasorelaxation of rat mesenteric arteries
C. Fernandez-Patron, M. W. Radomski, and S. T. Davidge H1473

Nitric oxide produced via neuronal NOS may impair vasodilatation in septic rat skeletal muscle
N. C. Gocan, J. A. Scott, and K. Tyml H1480

Myogenic reactivity and resistance distribution in the coronary arterial tree: a model study
A. J. M. Cornelissen, J. Dankelman, E. VanBavel, H. G. Stassen, and J. A. E. Spaan H1490

Differential regulation of cardiac ANP and BNP mRNA in different stages of experimental heart failure
T. Langenickel, I. Pagel, K. Höhnel, R. Dietz, and R. Willenbrock H1500

Recombinant human, active site-blocked factor VIIa reduces infarct size and no-reflow phenomenon in rabbits
P. Golino, M. Ragni, P. Cirillo, A. Scognamiglio, A. Ravera, C. Buono, A. Guarino, O. Piro, C. Lambiase, F. Botticella, M. Ezban, M. Condorelli, and M. Chiariello H1507

Contribution of cytochrome *P*-450 ω-hydroxylase to altered arteriolar reactivity with high-salt diet and hypertension
J. C. Frisbee, J. R. Falck, and J. H. Lombard H1517

Endothelium modulates anion channel-dependent aortic contractions to iodide
F. S. Lamb and T. J. Barna H1527

Fluid flow activates a regulator of translation, p70/p85 S6 kinase, in human endothelial cells
L. W. Kraiss, A. S. Weyrich, N. M. Alto, D. A. Dixon, T. M. Ennis, V. Modur, T. M. McIntyre, S. M. Prescott, and G. A. Zimmerman H1537

Energetics of rat papillary muscle during contractions with sinusoidal length changes
J. Baxi, C. J. Barclay, and C. L. Gibbs H1545

Amelioration with vessel dilator of acute tubular necrosis and renal failure established for 2 days
L. C. Clark, H. Farghaly, S. R. Saba, and D. L. Vesely H1555

Vagus nerve is involved in lack of blood reflow into sinusoids after rat hepatic ischemia
T. Nishida, S. Ueshima, H. Kazuo, T. Ito, A. Seiyama, and H. Matsuda H1565

Bradykinin mediates cardiac preconditioning at a distance
R. G. Schoemaker and C. L. van Heijningen H1571

Interaction of glutamine and arginine on cerebrovascular reactivity to hypercapnia
T. Okada, Y. Watanabe, S. W. Brusilow, R. J. Traystman, and R. C. Koehler H1577

Cardiac output increases independently of basal metabolic rate in early human pregnancy
M. E. A. Spaanderman, M. Meertens, M. Van Bussel, T. H. A. Ekhart, and L. L. H. Peeters H1585

Interstitial flow through the internal elastic lamina affects shear stress on arterial smooth muscle cells
S. Tada and J. M. Tarbell H1589

Temporal gradient in shear-induced signaling pathway: involvement of MAP kinase, c-*fos*, and connexin43
X. Bao, C. B. Clark, and J. A. Frangos H1598

Thrombin induces endothelin expression in arterial smooth muscle cells
D. Lepailleur-Enouf, O. Valdenaire, M. Philippe, M. Jandrot-Perrus, and J.-B. Michel H1606

Heme oxygenase modulates selectin expression in different regional vascular beds
T. J. Vachharajani, J. Work, A. C. Issekutz, and D. N. Granger H1613

Regulation of contraction and relaxation by membrane potential in cardiac ventricular myocytes
G. R. Ferrier, I. M. Redondo, C. A. Mason, C. Mapplebeck, and S. E. Howlett H1618

Interstitial fluid pressure, composition of interstitium, and interstitial exclusion of albumin in hypothyroid rats
H. Wiig, R. K. Reed, and O. Tenstad H1627

Myocardial ischemia-reperfusion injury in estrogen receptor-α knockout and wild-type mice
P. Zhai, T. E. Eurell, P. S. Cooke, D. B. Lubahn, and D. R. Gross H1640

Vagal modulation of the heart and central hemodynamics during handgrip exercise
H. A. Kluess, R. H. Wood, and M. A. Welsch H1648

Beating rate of isolated neonatal cardiomyocytes is regulated by the stable microtubule subset
D. R. Webster and D. L. Patrick H1653

Effects of diminished expression of connexin43 on gap junction number and size in ventricular myocardium
J. E. Saffitz, K. G. Green, W. J. Kraft, K. B. Schechtman, and K. A. Yamada H1662

I_{NaCa} contributes to electrical heterogeneity within the canine ventricle
A. C. Zygmunt, R. J. Goodrow, and C. Antzelevitch H1671

Role of endogenous nitric oxide in progression of atherosclerosis in apolipoprotein E-deficient mice
K. Kauser, V. Da Cunha, R. Fitch, C. Mallari, and G. M. Rubanyi H1679

Leukocyte adhesion and microvessel permeability
P. He, J. Wang, and M. Zeng H1686

Endothelin-induced cardiac myocyte hypertrophy: role for focal adhesion kinase
D. M. Eble, J. B. Strait, G. Govindarajan, J. Lou, K. L. Byron, and A. M. Samarel H1695

Alterations in cardiac adrenergic terminal function and β-adrenoceptor density in pacing-induced heart failure
H. Kawai, A. Mohan, J. Hagen, E. Dong, J. Armstrong, S. Y. Stevens, and C.-S. Liang H1708

A new method of long-term preventive cardioprotection using *Lactobacillus*
T. Oxman, M. Shapira, A. Diver, R. Klein, N. Avazov, and B. Rabinowitz H1717

Orosomucoid has a cAMP-dependent effect on human endothelial cells and inhibits the action of histamine
J. Sörensson, M. Ohlson, A. Björnson, and B. Haraldsson H1725

No. 6. JUNE 2000

SPECIAL TOPIC

Prologue: low-molecular-weight GTPases in the heart and circulation
D. E. Vatner and D. L. Kunze H1733

β_1-Integrin and PI 3-kinase regulate RhoA-dependent activation of skeletal α-actin promoter in myoblasts
L. Wei, W. Zhou, L. Wang, and R. J. Schwartz H1736

Gene transfer of dominant negative Rho kinase suppresses neointimal formation after balloon injury in pigs
Y. Eto, H. Shimokawa, J. Hiroki, K. Morishige, T. Kandabashi, Y. Matsumoto, M. Amano, M. Hoshijima, K. Kaibuchi, and A. Takeshita H1744

$P2Y_1$, $P2Y_2$, $P2Y_4$, and $P2Y_6$ receptors are coupled to Rho and Rho kinase activation in vascular myocytes
V. Sauzeau, H. Le Jeune, C. Cario-Toumaniantz, N. Vaillant, A.-P. Gadeau, C. Desgranges, E. Scalbert, P. Chardin, P. Pacaud, and G. Loirand H1751

Inhibition of Rho protein stimulates iNOS expression in rat vascular smooth muscle cells
R. Muniyappa, R. Xu, J. L. Ram, and J. R. Sowers H1762

The Rho effector, PKN, regulates ANF gene transcription in cardiomyocytes through a serum response element
M. R. Morissette, V. P. Sah, C. C. Glembotski, and J. H. Brown H1769

NTS A_{2a} purinoceptor activation elicits hindlimb vasodilation primarily via a β-adrenergic mechanism
A. M. Kitchen, T. J. Scislo, and D. S. O'Leary H1775

Inhaled NO reduces leukocyte-endothelial cell interactions and myocardial dysfunction in endotoxemic rats
R. Nevière, B. Guery, S. Mordon, F. Zerimech, S. Charré, F. Wattel, and C. Chopin H1783

Ischemic preconditioning prevents I/R-induced alterations in SR calcium-calmodulin protein kinase II
M. Osada, T. Netticadan, K. Kawabata, K. Tamura, and N. S. Dhalla H1791

Impaired nitric oxide-mediated vasodilation in transgenic sickle mouse
D. K. Kaul, X.-D. Liu, M. E. Fabry, and R. L. Nagel H1799

G_i-dependent suppression of β_1-adrenoceptor effects in ventricular myocytes from NE-treated guinea pigs
H. K. Ranu, J. C. W. Mak, P. J. Barnes, and S. E. Harding H1807

Somatostatin receptor subtype expression and function in human vascular tissue
S. B. Curtis, J. Hewitt, S. Yakubovitz, A. Anzarut, Y. N. Hsiang, and A. M. J. Buchan H1815

Essential roles of IκB kinases α and β in serum- and IL-1-induced human VSMC proliferation
S. Sasu and D. Beasley H1823

Role of EDHF in conduction of vasodilation along hamster cheek pouch arterioles in vivo
D. G. Welsh and S. S. Segal H1832

Decreased passive stiffness of cardiac myocytes and cardiac tissue from copper-deficient rat hearts
L. J. Heller, D. E. Mohrman, and J. R. Prohaska H1840

Spontaneous fluctuations in cerebral blood flow: insights from extended-duration recordings in humans
R. Zhang, J. H. Zuckerman, and B. D. Levine H1848

Endoplasmic reticulum contribution to the relaxant effect of cGMP- and cAMP-elevating agents in feline aorta
C. Mundiña-Weilenmann, L. Vittone, G. Rinaldi, M. Said, G. Chiappe de Cingolani, and A. Mattiazzi H1856

Structural and functional remodeling of skeletal muscle microvasculature is induced by simulated microgravity
M. D. Delp, P. N. Colleran, M. K. Wilkerson, M. R. McCurdy, and J. Muller-Delp H1866

Metabolism of VLDL is increased in streptozotocin-induced diabetic rat hearts
N. Sambandam, M. A. Abrahani, S. Craig, O. Al-Atar, E. Jeon, and B. Rodrigues H1874

Peroxynitrite reversibly inhibits Ca^{2+}-activated K^+ channels in rat cerebral artery smooth muscle cells
A. K. Brzezinska, D. Gebremedhin, W. M. Chilian, B. Kalyanaraman, and S. J. Elliott H1883

Inducible polymorphic ventricular tachyarrhythmias in a transgenic mouse model with a long Q-T phenotype
A. Jeron, G. F. Mitchell, J. Zhou, M. Murata, B. London, P. Buckett, S. D. Wiviott, and G. Koren H1891

Evidence for modulation of smooth muscle force by the p38 MAP kinase/HSP27 pathway
I. A. Yamboliev, J. C. Hedges, J. L.-M. Mutnick, L. P. Adam, and W. T. Gerthoffer H1899

Differential expression of KvLQT1 isoforms across the human ventricular wall
Y. Péréon, S. Demolombe, I. Baró, E. Drouin, F. Charpentier, and D. Escande H1908

Remote arteriolar dilations in response to muscle contraction under capillaries
K. D. Cohen, B. R. Berg, and I. H. Sarelius H1916

SERCA2a activity correlates with the force-frequency relationship in human myocardium
G. Münch, B. Bölck, K. Brixius, H. Reuter, U. Mehlhorn, W. Bloch, and R. H. G. Schwinger H1924

Selective plasmalogen substrate utilization by thrombin-stimulated Ca^{2+}-independent PLA_2 in cardiomyocytes
J. McHowat and M. H. Creer H1933

Effects of estrogen on venous function in rats with chronic heart failure
A. A. Nekooeian and C. C. Y. Pang H1941

Cardioprotective effect of chronic hyperglycemia: effect on hypoxia-induced apoptosis and necrosis
S. W. Schaffer, C. B. Croft, and V. Solodushko H1948

Nitric oxide modulation of TNF-α-induced cardiac contractile dysfunction is concentration dependent
J. W. Horton, D. Maass, J. White, and B. Sanders H1955

Efficacy and specificity of bFGF increased collateral flow in experimental peripheral arterial insufficiency
H. T. Yang, Y. Feng, L. A. Allen, A. Protter, and R. L. Terjung H1966

Systemic and renal hemodynamics after moderate hemodilution with HbOCs in anesthetized rabbits
A. Caron, P. Menu, B. Faivre-Fiorina, P. Labrude, A. Alayash, and C. Vigneron H1974

Exercise training restores adenosine-induced relaxation in coronary arteries distal to chronic occlusion
C. L. Heaps, M. Sturek, J. A. Rapps, M. H. Laughlin, and J. L. Parker H1984

Influence of glycogen storage on vascular smooth muscle metabolism
T. J. Allen and C. D. Hardin H1993

Potassium channels modulate cerebral autoregulation during acute hypertension
R. Paternò, D. D. Heistad, and F. M. Faraci H2003

Identification of ecto-PKC on surface of human platelets: role in maintenance of latent fibrinogen receptors
A. Babinska, M. V. Hogan, T. Sobocki, M. B. Sobocka, Y. H. Ehrlich, and E. Kornecki H2008

Endothelial dysfunction does not require loss of endothelial nitric oxide synthase
R. R. Giraldez, A. Panda, and J. L. Zweier H2020

Sulfonylurea receptor ligands modulate stretch-induced ANF secretion in rat atrial myocyte culture
J.-H. Jiao, P. Baumann, A. Baron, A. Roatti, R. A. Pence, and A. J. Baertschi H2028

Physiological time-series analysis using approximate entropy and sample entropy
J. S. Richman and J. R. Moorman H2039

ET-1 in the myocardial interstitium: relation to myocyte ECE activity and expression
A. Ergul, C. A. Walker, A. Goldberg, S. C. Baicu, J. W. Hendrick, M. K. King, and F. G. Spinale H2050

Differential role of ionotropic glutamatergic mechanisms in responses to NTS P_{2x} and A_{2a} receptor stimulation
T. J. Scislo and D. S. O'Leary H2057

Chronic hypoxia, pregnancy, and endothelium-mediated relaxation in guinea pig uterine and thoracic arteries
M. M. White, R. E. McCullough, R. Dyckes, A. D. Robertson, and L. G. Moore H2069

Changes of β-adrenergic signaling in compensated human cardiac hypertrophy depend on the underlying disease
U. Schotten, K. Filzmaier, B. Borghardt, S. Kulka, F. Schoendube, C. Schumacher, and P. Hanrath H2076

Nonanticoagulant heparin inhibits NF-κB activation and attenuates myocardial reperfusion injury
V. H. Thourani, S. S. Brar, T. P. Kennedy, L. R. Thornton, J. A. Watts, R. S. Ronson, Z.-Q. Zhao, A. L. Sturrock, J. R. Hoidal, and J. Vinten-Johansen H2084

Histamine-induced depolarization: ionic mechanisms and role in sustained contraction of rabbit cerebral arteries
N. I. Gokina and J. A. Bevan H2094

Role of intracellular Ca^{2+} release in histamine-induced depolarization in rabbit middle cerebral artery
N. I. Gokina and J. A. Bevan H2105

Cyclosporin A inhibits cardiac hypertrophy and enhances cardiac dysfunction during postinfarction failure in rats
E. Øie, R. Bjørnerheim, O. P. F. Clausen, and H. Attramadal H2115

Nicotine increases ventricular vulnerability to fibrillation in hearts with healed myocardial infarction
M. Yashima, T. Ohara, J.-M. Cao, Y.-H. Kim, M. C. Fishbein, W. J. Mandel, P.-S. Chen, and H. S. Karagueuzian H2124

Regulation of types I and III NOS in ovine uterine arteries by daily and acute estrogen exposure
W. A. Salhab, P. W. Shaul, B. E. Cox, and C. R. Rosenfeld H2134

Phosphorylation at tyrosine-524 influences nuclear accumulation of HSP72 with heat stress
A. A. Knowlton, M. Grenier, S. R. Kirchhoff, and M. Salfity H2143

SPECIAL COMMUNICATIONS

A custom confocal and two-photon digital laser scanning microscope
W. G. Wier, C. W. Balke, J. A. Michael, and J. R. H. Mauban H2150

A self-powered constant infusion device for use in unrestrained rats
P. H. Brand, N. Qi, P. J. Metting, and S. L. Britton H2157

Entropies of short binary sequences in heart period dynamics
D. Cysarz, H. Bettermann, and P. Van Leeuwen H2163
